## the Savannah Georgia Cup

The Aaron's Cycling Team traveled to Savannah for the second installment of the Georgia Cup Series. The event included races Saturday and Sunday. Aaron's dominated the entire weekend.

The Men's Elite Team took a strong group down to Savannah with intentions of gaining the leader's jersey for Erick Pierce who was in 4th place headed into the weekend. The team's tactics for the 1st race were to attempt to get Erick into a breakaway. They were successful halfway through the race with Erick jumping off the front of the group with another rider.

On the second day, the team's goal was to sit on the front of the group to keep breakaways from occurring and set Erick up for the final sprint. The team executed this plan to perfection. On the final lap the team had five riders at the front of the group and pushed the pace so hard that no one could attack. Into the final corner, Erick found himself pushed out in the wind, so he buried his head for the sprint. Teammate Robbie Kollar, last year's Georgia Cup Champion, was still drafting and unsure whether Erick would be able to hold on for the sprint. Robbie went for it taking the win with Erick in second and Dana Hamrick in fifth!

First, in the Women's race, Shannon Hutchison racked up wins on both days. Shannon's sprint once again proved to be too powerful for the other girls. Shannon has already recorded four wins on the early season!

Erick's first and second places for the weekend put him in the Georgia Cup leader's jersey. The team is now in full control of the series and plans on holding onto the jersey for the remainder of the season. Aaron's Cycling has quickly established itself the premier Elite cycling team in the southeast.
